Argentina's Money.

It was expected yesterday that the last word would be said in the negotiations which have been carried on between bankers in this country and Argentina for a loan of $50,000,000 to be effected through 6 per cent. bonds running for five years. The essential details were agreed upon some weeks ago, but the final settlement has hung fire. Bankers who have been handling the American end of the triangular negotiations thought it would be possible to make a formal announcement of the conclusion of the matter before nightfall, but they were disappointed. The Treasury Department in London has made a ruling permitting bankers in that city to participate in the underwriting on the ground that it is for the purpose of refunding outstanding obligations. The United States and Great Britain will share equally in the loan, but whereas practically all of the $25,000,000 bonds sold here will absorb investment capital, London will make its contribution through an exchange of maturing obligations, and, in fact, will come out of the transaction with about $15,000,000 in cash sent from this country to meet the remaining obligations. As for Argentina, when her maturing debts are met a balance of less than $10,000,000 out of the $50,000,000 borrowed will be available for expenditure.

Dear Sir,-

Republic of Argentine - $50,000,000 Loan

I have just been advised that this new loan has been taken up as follows:

$25,000,000 by the City National Bank

$25,000,000 is to be placed in London

We are working through Messrs. Sherman & Sterling, the lawyers of the City National Bank, for the securities to be placed in this country, which will carry ten coupons, and have hopes that they will be steel engraved, although they first mentioned lithography.

I just give you this information, thinking you might want to advise our London friends for the other portion which is to be taken in London.

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes on the lines of this Company, the sender of every message should order it repeated; that is, telegraphed back from the terminus of said lines to the originating office. For such repeating the sender will be charged, in addition, one-quarter the usual tolls of this Company on that portion of its lines over which such message passes.

This Company will not assume any responsibility concerning any message beyond the terminus of its own lines. It is agreed between the sender of the following message and this Company, that this Company shall not be liable for mistakes or delays in transmission or delivery, nor for non-delivery to the next connecting telegraph company, or to the addressee, of any unrepeated message, beyond the amount of that portion of the tolls which shall accrue to this Company; and that this Company shall not be liable for mistakes in the transmission or delivery, nor for delay or non-delivery to the next connecting telegraph Company, of any repeated message, beyond fifty times the extra sum received by this Company from the sender for repeating such message over its own lines; and that this Company shall not be liable in any case for delays arising from interruption in the working of its lines, nor for errors in cipher or obscure messages. And this Company is hereby made the agent of the sender, without liability, to forward any message over the lines of any other Company when necessary to reach its destination.

It is agreed that this Company shall not be liable for damages in any case where the claim is not presented to it in writing within sixty days after the message is filed with this Company for transmission.

The papers advertise that a loan is being made to the Republic of Argentine to the amount of $50,000,000 - half of which is being placed in New York and the balance in London. Not knowing whether you were aware of this we cabled you on May 8th as follows:-

> "Argentine loan has been made $50,000,000. Half has been taken here by City National Bank. Are you getting other half being placed London."

---

and are anxiously awaiting your answer.

We enclose advertisement and also newspaper clipping which may be of interest to you. As you will see, the business is being handled here by a number of banks and we understand that the London Bankers interested in the loan are Morgan Grenfell & Co. and also Baring Bros. and Company.

Date May 13th. 1915.

We duly received your telegram of the 8th. inst.as follows :

> "Argentine loan has been made 50,000,000 Dollars
> half has been taken here by City National Bank
> are you getting other half being placed London"

This is being taken here by Barings, and they state that they will not move in the matter so far as printing is concerned for another ten days or two weeks. In the meantime, we hear that practically everybody is after it, and it is rather hard to say who will get it. Naturally, our Sales Department is putting forth every effort.

Yours truly,

We were, of course, on this job prior to receipt of your wire.

LONDON

GOVERNMENT OF THE ARGENTINE NATION.

May 14,1915.

With further reference to our letter of yesterday's date, we understand that the American half of this loan will consist of 25,000 $1000 bonds.

There is some talk of listing them on the New York Stock Exchange, which naturally means that they would have to be steel engraved , in accordance with the requirements of the Listing Committee. This point, however, has not yet been entirely settled. As soon as we know definitely we will advise you further.

We are,of course, very hopeful that they will have to be steel engraved and if this is the case it seems to us that the English bonds will also have to be prepared in a like manner.

In reply to your enquiry of 27th July, I would say that Baring Bros. informed us that, while they preferred our design, and would like to place the order with us, we were not the lowest bidder and that, owing to the present situation, economy had to be the first consideration. We do not know but suspect that the order went to Waterlow & Sons., whom we know are slashing prices to pieces, which, from our point of view, and I think you will agree with me, is very bad policy, for personally I see absolutely no sense in taking orders without a fair margin of profit, and if the price quoted for this work by our competitor was considerably lower than ours, which is the statement made, it must have been at about cost, and that is scarcely good business.
